September 2011

Dear Municipal Official:

The Office of Local Government Assistance is pleased to enclose the results of its 22nd Annual Salary Survey of selected municipal positions in Rhode Island. The survey includes salaries for municipal chief executives and 24 various department directors and other officials. The survey includes mostly full-time positions and does not include fringe benefit data.

This year's survey provides data on base salaries (and salary ranges, where applicable), as well as longevity figures for those cities and towns which provide longevity increments.

The use of comparative salary data must, of necessity, takes into consideration factors other than just community population. For example, in some communities one individual may serve as purchasing agent, tax collector and finance director, while in another community, these responsibilities may be divided among several individuals. Another common example is in the area of public works. Some directors are responsible only for road maintenance, while others are responsible for sewer and water supply, in addition to road improvements.

The Office of Local Government Assistance wishes to thank all the local officials who responded to our survey in a very timely manner. Comments for improving this salary survey are welcomed.

Sincerely,

Joseph E. Coduri, Supervisor
Local Government Assistance
